ENTER PLEXUS TRIPLEX

Plexus TriPlex is a system that promotes a healthier gut. By combining three popular Plexus products – Bio Cleanse, ProBio 5, and Slim – we’ve created a powerhouse system that works in three ways to help get your gut back into balance and is clinically demonstrated to help you lose weight.*

REMOVE:
Bio Cleanse works to remove harmful microbes and substances, supporting your body’s natural detoxification processes. The combination of our magnesium and Bioflavonoid Complex helps clear out the gastrointestinal tract, meaning your digestive system can work the way it should.*

RESTORE:
ProBio 5 helps restore a healthy balance to your intestinal tract and responds to imbalances in the gut. Its formulation delivers 2 billion microorganisms in each capsule at time of manufacture. So yeah, it’s kind of a big deal.*

REBALANCE:
Slim – Plexus’ patent-pending health drink is packed with prebiotics to support gut microbiome health, exciting weight loss benefits and a refreshing raspberry, lemon, watermelon flavor.*

TRIPLEX PRIMARY BENEFITS
• Clinically demonstrated weight loss system*
• Promotes the growth of good gut microbes**
• Increases Lactobacillus by 365 times and Bifidobacterium by 290 times – contributing to overall health***
• Increases the metabolism enhancing Akkermansia by 250 times****

EVER FEEL OUT OF WHACK?

Sometimes, we experience health challenges that we aren’t really sure how to deal with — things like indigestion, gas, bloating, weight gain, and even mood swings. Like all health challenges, these things could be trying to tell you that something in your body is off. And like all health challenges, it’s much more effective to alleviate these things by attacking them at the source. Lucky for you, all these problems (and many more), happen to come from the very same place.

MEET YOUR GUT.
The gut is the unsung hero of your body: heading up natural detoxification processes, supporting the immune system, supporting your mood, and keeping the digestive system in balance. At least, that’s what it’s supposed to do.

Unfortunately, life tends to get in the way of gut health. Food, lifestyle choices, and even the environment can affect the gut’s delicate balance of healthy and unhealthy bacteria. This can impact the gut’s ability to function optimally, leading to one or more of the problems mentioned above.

Not convinced? Consider the fact that 70% of the cells needed for a healthy immune system can be traced to your gut. Or that your gut is responsible for 90% of your body’s serotonin – a hormone linked to happiness. Clearly, an unbalanced gut can lead to some major problems.

How do you fight these negative influences and get your gut back on track? We’re glad you asked.
• Supports healthy glucose metabolism*
• Helps keep intestinal yeast in balance*
• Helps support a healthy intestinal tract*
• Helps improve natural response to imbalance*
• Helps cleanse the gastrointestinal tract*
• Reduces gas, bloating, and discomfort*
• Helps promote regularity*
• Helps remove harmful microbes and substances*
• Supports your body’s natural detoxification processes*
• Supports weight loss when combined with a healthy diet and exercise*

TRIPLEX™ ADVANTAGE
• Delivers 2 billion CFU per capsule at time of manufacture
• No artificial colors, flavors or preservatives
• Gluten Free

WHO SHOULD USE TRIPLEX?
TriPlex helps improve overall health by focusing on the gut—an aspect of health which may have been previously ignored. TriPlex helps those looking for a healthy, safe way to support their gut health, mood, immune and digestive systems. TriPlex is also a clinically demonstrated option for those who want to lose weight.*

FREQUENTLY ASKED QUESTIONS
When is the best time to take Plexus TriPlex?
You should use the Plexus TriPlex system every day—2 capsules in the morning, and 2 more at lunch. ProBio 5 should be taken in the evening, ideally before bedtime, and you can take up to 4 capsules. Slim can be taken twice daily, at any time of the day.

**These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.**

*Participants in an independent, randomized, double-blind, placebo-controlled, human clinical study who used Slim twice a day and Bio Cleanse and ProBio 5 lost an average of 7.21 pounds in 8 weeks, while the placebo group only lost an average of 0.19 pounds.
What are the main benefits of taking Plexus TriPlex™?
Plexus TriPlex is a gut health system that removes harmful microbes and substances, restores a healthy balance to your intestinal tract, and rebalances your body. It can help with intestinal discomfort, gas, and bloating, while also benefitting your mood and your immune system. (Bonus: it can help you lose weight, too)!*

Why is good gut bacteria important for your overall health?
Good gut bacteria has many benefits. It improves digestion, strengthens your immune system, and works to manufacture necessary vitamins for your body. The end result is a healthier you.

Is there a clinical study on TriPlex?
Yes, TriPlex has been shown in a clinical study to encourage weight loss. Participants in the study were shown to lose over 7 pounds in 8 weeks.*

What sets Plexus TriPlex apart from other products?
Plexus TriPlex is a great solution to an often ignored problem. Gut health is extremely important to your overall health, and now you can finally address it with this powerhouse system. And of course, it helps you lose weight, too!* 

Can I take VitalBiome™ with TriPlex?
Yes, VitalBiome is a perfect companion for TriPlex. We suggest taking VitalBiome in the morning and ProBio 5 at night. Bio Cleanse and Slim can be taken as usual.
